# WALLTECH HERITAGE

## Specialty Wall Cleaner

Walltech Heritage is a highly effective cleaning agent capable of removing aged deposits and carbon stains on brick, concrete and masonry surfaces. Effectively removes the most difficult stains without damaging sensitive surfaces\*. For best results Walltech Neutraliser should be used immediately after treatment.

**Directions** Apply directly to the surface being treated. In most cases the stain will disappear immediately. For difficult stains allow extra time before hosing off with plenty of water. Dilute solution 2:1 for light coloured bricks. Always test on a small obscure area first and avoid contact with other surfaces. Windows, frames and doors should be covered with plastic sheeting to avoid damage to surfaces. Neutralise surfaces with Walltech Neutraliser after treatment. \*When used according to manufacturers directions.

**Advantages** Walltech Heritage is a highly concentrated combination of inorganic acids and acid salts that enable removal of stains and deposits that can not be removed by conventional brick cleaning products.

**Description** clear colourless solution  
**Packaging** 20 Litre, 200 Litre, 1,000 Litre IBC
